### Surface Indications

What a miner would very properly term "surface indications" of what is beneath, are the Pimples, Sties, Sore Eyes, Bolls, and Cutaneous Eruptions with which people are annowed in spring and early summer. The effete mitter accumulated during the winter months, now makes its presence felt, through Nature's endeavors to expel it from the system. While it remains, it is a polson that festers in the blood and may develop into Scrofula. This condition causes derangement of the digestive and assimilator or, sins, with a feeling of enervation, languor and weariness—often lightly spoken of as only spring fever." These are evidences that Nature is not able, unaided to throw off the corrupt atoms which weaken the vite forces. To regain health, Nature must be added by a thorough blood purifyin, melicine, and nothing close is so checitive as

which is sufficiently powerful to expel from the system even the taint of Heroditary Serofula.

GEORGE WILLIAM CURTIS, the boss mugwamp, seems to be getting his | The Ensign of Liberty Hung at Halfeyes open to the fact that the ideal administration which he helped to install in power is not filling the full measure of his expectations, and that it is puraning the loaves and fishes policy with as much diligence as any party that ever got the chance to do so. In the last issue of his paper Mr. Curtis relieves his mind after this fashion

It is announced from Washington that Attorney General Garland has completed an entire political change in the personnel of his office. But unless all the gentlemen employed were incompetent or dishonest which is not supposable, or unless it were impossible properly to carry out projected reforms or correctly learn the condition of the depart ment unless such dismissals should be made, such a proceeding is an outrage upon common sense and a they belong to one party, and the appointment of others because they belong to another, is the very evil against which the movement for reform in the civil service is directed. Now, there is nothing very sur-

prising about all this, but the humorous side of the matter lies in the fact that Mr. Curtis should express any other emotion over it than might be conveyed in the common phrase, "I told you so," since he is best remembered in these days by the epeech he made in the Republican national convention of last year, in which he referred to the Democratic party as being "very hungry, and very thirsty, too." Mr. Curtis shoul i not intimate, at this late day, that he "didn't know it was loaded."

Tur dispatches announce that a peculiar lawsuit has just been decided in the Knox circuit court. Last fall during the heated election Mr. Sam Wile, republican, bet with Mr. James Kackley, demograt, that Gov. Oglesby would beat Carter Hurrison in Illinois by 10,000 votes. The money was put up in the hands of Chris. Guess, a democratic saloon keeper. After the election Wile claimed he won the bet, but the etakeholder would not give him the money. Wile sned for the recovery of the stakes, \$200. The other day the case was decided by Judge Mullet's court. The judge instructed | plaintiff (Wile) because he had sned recovery of his own money he could Oglesby would beat Harrison by 10,000 majority, and not by 10,000

Ir is reported from Washington that a compromise has been effected between Senators Logan and Cullom and Congressman Springer whereby Mr. Paul Selby, postmaster at Springfield, will remain undisturbed for the present. The compromise is said to have come about partly through the fear the president has that the removal of Mr. Selby, in view of his excellent record in the office, would meet with a protest from the United States senate in the shape of a refusal to confirm

Mast On All Public Buildings in Salt Lake City.

The Grand Army of the Republic to the Rescue--Run Up to the; Mast-Head.

SALT LAKE CITY, UTAH, July 5.-When the sun rose vesterday morning the National flag hung at half-mast on the City Hall, County Court-house, Deseret News office, Mormon taberoacle, church tithing office, John Taylor's residence, Mormon church offices and Sait Lake Theater. That on the last named building was kept at full mast, assenge as W Rossiter, present manager, saw it, but those on the other buildings hung limp and dejectedly against, their masts. No one could be found to explain the reason. About noon a committee composed of United States Marshal Ireland, C. L. Haines, Major Wilkes and Captula Evans, the last two named cx-Confederates, went to the City Hall to find out the reason. City flagrant abuse of official power. The dismissal of subordinates because manded that the flag be raised to full must, which demand was met with denial, whereupon Captalu Evans jumped up and started out to raise it bimself. The door was shut and locked by a policeman before he reached it. All present, metuding some dozen police officers, made a rush for Evans. Constable Char-lic Crow raised his club to strike and

drew his pistol. Other officers reached for their guns. Quiet was restored by

the United States Marshal and the con-

The city officials said the Fourth of July was a day of mourning to them and this people whose best men were in the Penttentiary by virtue of federal official and liberty; that the flag over the City Hall did not belong to any ring of so-called loyal Americans, and intimated that any man who undertook to disturb the flag at half-mast would be shot. The officers and committee of clinens then went into the street, where small crowd had gathered, numbers of whom wanted to raise the flag at all hazards, but were warned by the police not to attempt it on pain of being "drop-Ju private consultation with United States Marshal Ireland, the City Marshal consented to either raise it ful most or take it down within thirty min-utes, while in the meantime Constable From had mustered up a small squad to retent the monout." The City Marshal consulted with Mayor Sharp, who was ittending a Mormon priesthood meeting. In less than thirty minutes the flag was run down amid cheers and sneers of the

The Grand Army Republic Post, celebrating near the city, were informed of the difficulty, and came in, after passing resolutions to run the flags to their proper places. They met a crowd of angry citizens at the Walker House. The crowd wanted to go, and by torce put the dags where they be-longed, but the coursel of Governor Murray prevalled Finally a committee of the was sent to demand of the Mayor that it should be done, and a few minutes later the flag at the City Hall was run up to the mast head. The citizens' committee made the demand on Sheilff Groesbreck, and he hoisted the Hig at the County Court-house from half the jury to find a verdict against the to full must without demarring. LIGHTNING WORK.

Rapid Ro-establishment of a Burnedout Telegraph O NEW YORK, July G .- Before the firemen had left the gutted bullding of the Baltimore & Ohlo Telegraph Company, No. 62 Broadway, this morning, a corpe of electricians and linemen ascended to the roof and began straightening out and connecting the tangled mass of wires. Meanwhile battery material, wire, tables, matruments, etc., were being collected from various dealers in telegraph sup-plies in the city, and incoming trains throughout the day brought a like supply of material from Boston, Philadel-phia, Buffalo, Baltimore and other places. During the day rooms were secured for operating, receiving and bat-tery departments, and general offices in the adjoining building,

No. 61 Broadway, and by seven o'clock last evening all of the numerous wices leased by the Bultlmore & Obio Company to newspapers and the United Press were working as if nothing had happened. At eight o'rlock twenty wires were being worked from the new office, and the com-pany announce that by ten o'clock to-day it will be ready to transact all business as usual. The establishment in so short a time of a new telegraph office of the magnitude of that of the Bultimore & Ohio Company out of such complete ruin as was presented yester-day morolog is a marvel in the history of telegraphy, and is due to the energy and rare ability of Superln-tendent E. Mr. McGregor, N. Y., July 7 .- Whe he sat down at the breakfast table yester day morning Dr. Douglas said he had enjoyed a night of better rest than in o ong time, and added humorously that General Grant also had slept and rested nnusually well. The physician had not been aroused, and this fact as well as the mplication, was that the patient had been so quiet that he did not need attention. Through the twelve hours ending at eight o'clock yesterday General Grant had slept fully eight or nine hours. Then he took food and was treated by the doctor, but he was not dressed, and dozed on at intervals through the forenoou. The sick man was feeling weak Saturday, though his weakness was not occasioned by the disease, but was incident to other causes Yesterday morning he felt stronger, a was indicated in a note he wrote for Dr Dong has between ten and eleven o'clock. The prelude was a patriotic reference to the sarly history of the nation and to the blessings we now enjoy by reason of the triumphs and struggles of our forefathers. The address was heard by a great crowd and was well received. Continuing, Mr. Johns said:

document clearly and distinctly.

Ontinuing, Mr. Johns said:

Trum three millions of people to fifty millions in one hundred and four years, is a marvel of propriess. From the possession of a marrow strip of land on our easten sea-coast to the combined of a mighty continent, is the most remarkable conquest in history. From the poverty of no resources to the silicence of revi nuce for which we have no use, and which flood our tronsuries with unused money, is the greatest linandial achievement the world has over known. From the wheelbarrow or hand-waren capress and the singueocach to the 1 ghining express, thying over a read of steel by the power of steam, is something of which tho wi dest enthusiast never dicamed. To stand in your homes and lank to a friend a hundred or even a thousand miles away, and recognize the very accessed of his voice, is to overcome the things those good people a hundred years and decents of his voice, is to overcome the things those good people a hundred years and decents of his voice, is to overcome the things those good people a hundred years and decents of his voice, is to overcome the object of that very time, is still more wonderful when we consider the past; for in those days the news traveled not on the wings of the lightning, but by foot-runners and pony-express, and events had been forgotten at the place of their occurrence before they were reported or known in a neighboring settlement. But, above all those advantages which an advantage vidication has showered upon us, is the tact that with the growth of wealth and population the growth of intelligence and curring has always kept pace. It is in this fact more than any other the hope of the republic is reposed. An Ignorant people, always careless of their rights and elow in maintaining them, cannot be trusted with self-governing political power; for bad men and advontance and to use the power gained by advantage to everthere wealth and the tack that we have the men and setub. \$50 up to \$250, at D. At night the grove was illuminated, and dancing was kept up until 12 o'clock Hundreds of people visited the grove in At night there was a general display of

fireworks about the city, the business part of town being crowded with people who came forth to witness the free show Balloons were sent up from various points and the air was brilliant with rockets and other Chinese inventions. At private houses there were pyrotechnic displays for the entertainment of the families and neighbors, but fortunately there were no DECATUR BEATEN.

One of the favorite attractions of the day were the exhibition base ball games at the Park, the competing clubs being the Park, the competing diffus being the Decatur Reds and a picked nine from Springfield, Pana and Taylorville, known as the Taylorville club. Only six mange were played during the forenoon, when the score was 6 to 5 in favor of Taylorville, the Hall brothers serving as the bettery for the home club with Lew battery for the home club with Lew Bickes on first base. Nearly 1,000 people witnessed the afternoon game, with the players occupying positions as follows:

tontague fall The game seemed to be a slugging match and was noted principally for errors on both sides, passed balls and persistent lumbling being frequent. There

was some brilliant playing by Laird,
Tuttle and Shilling, of the home team,
and by T. Golden, Cruthers, Staley and
Whitecraft, for the Taylorville nine. The whitecrart, for the Taylorvine line. The crowd was orderly and cheered both sides liberally, while groans were as conscientionally bestowed. The Reds might have vanquished the visitors had they played with the spirit displayed when they defeated the Springfield club. The club should not rely chiefly on the pitcher and catcher. They have their bad days, and the 4th was one of them. If possible change players for these places should be secured. The score was Taylorville, 14; Decatur, 12. The umpire was Charley

AT OAKLAND PARK. There was a great crowd of people at Oakland Park all day, and the street oars were crowded from an early hour in the forenoon until late at night. The seven cars could not accommodate the people, care could not accommodate the people, and various hacks hauled hundreds to the Park, siding in bringing them home at night. The cars earned from \$40 to \$50 each during the day, and the backs averaged about \$20. During the afternoon the various prize races oams off on the lake, and were witnessed by a great growd. In the boat race Marshall Carter made the trip around the lake in 6 minutes and 5 seconds, and got the \$5 prize. utes and 5 seconds, and got the \$5 prize. In the swimming match, 'Shek' Hughes was the winner, getting the \$2 prize, and in the tub race George Baker won the \$5 prize. Hundreds of people visited the Park at night and witnessed the brilliant display of fireworks which continued for over an hour. There was no disorderly conduct, whatever, about the grounds

and everybody had a pleasant time. PIUNIO PARTIES. About 10 couples of the Home Circle Club, with Miss Wanneley, of Terre Hante, went to Oreana early in the morning in buggies and spent the day as the guests of Mr. and Mrs. S. W. "but it is a house or but erected by a bird in one of the islands of the Indian Archipelago The picture was drawn by a triend of mine who found the house himself. He was traveling through the country with a native escort, and being a naturalist had his eyes open to everything new One day while striking up through a densely wooded country among the mountains one of the men who had been straggling behind came to him with a story that he had found the house of a race of dwarfs that the nutives believed inhabited the gloomy parts of the country. My friend hid often heard this story and, of course took it for what it was worth, but as here was confirmation offered he could not do less than search. Leaving the eamp, he started off on a three-mile trainp through the bush, and was well repaid, as the man soon took him to penal master as to the condition of the Russian finances. The Emperor at

It Can Cure It is a fact that remedies almost withou number already contest the claim to care all the il that afflict suffering humanity. Theusands has found them powerloss to work a cure for them.

No diseases have so baffled all attempts at permanent reliaf as have Rhounstism and Neural ris. A long succession of disappointments has made their agencies within despair of the possibility of cure. For conturned they have been considered beyond the power of medical skill to cure.

And yet we say both can be cured, and It Did Cure

Rev S. R. Dennen, D.D., pastor Third Congregational Church, New Haven, Conn. Rhom mattern had kept bith from the pulpit four or its months sta time. He says he had suffered all the one could, and five. He took his first dose of Arit Lorinones on Friday. Sunday he was in his pulpit Monday he was well, and has remained so since. Rev William P Corbit, DD, pasto H S. Chandler, of the N. Y. "Independent," says ATHLOPHOROS cured him of Rheum tiam from which behad suffered for a year and a hall

Rev W. B. Evans, Washington, D. C., says 'I consider its work almost in the light of a mirrole. It is a most wonderful medicine. It ought to be spread throughout the land."
